How to Buy Laboratory Animals

University Laboratory Animal Resources (ULAR) is responsible for the procurement, care, and use of all University-owned animals used for teaching, research, and testing as approved by the Institutional Animal Care and Use Committee (IACUC) and as mandated by federal law and regulations. ULAR has established a set of Standard Operating Procedures for animal procurement, receiving, and health assessment and monitoring.

All questions related to the procurement and care of laboratory animals are to be directed to ULAR staff members.
