Did your warranty or service plan expire on your GE Healthcare equipment? If so, Neta Scientific can help.

Partnership

Neta Scientific has partnered with GE Healthcare at UPENN to handle all service plans. Our range of service agreements are tailored to meet your needs ensuring that your equipment is optimally maintained and the total cost of ownership is predictable. Our service contracts can extend the life of your systems and protect you against unexpected breakdown costs.

Our Mission

To provide the global science market with access to superior laboratory supplies and solutions that enable world-leading research and development.

Why Neta?

- Regular Preventive Maintenance (PM) Visits
- Predictable Ownership Costs
- Minimal Equipment Disruptions
- Guaranteed Rates
- Genuine GE Manufactured Replacement Parts
- Services Performed by GE Healthcare Trained Professionals
